By order from the Quartermaster-General, the attention of officers on duty in the several military departments is called to the great number of animals belonging to the United States in the possession of persons who have no legal title or rightful claim thereto. Such animals will be selzed wherever found and turned over to the nearest quartermaster. In cases upon the affidavit of the parties from whom the property is taken, that they have reason to believe their title valid and that they will produce evidence to prove it, the property will be detained in custody till a thorough investigation is made. The persons in possession of disputed property must show title thereto by virtue of some authorized government sale indicated by the brand J. It is admitted as a fact, that any trial in a Southern State would be a arec; that the Southern States unanmously desire his pardon; that the majority of the Democratic party hold the same opinion; and now that the radical wing of the Republican party have expressed the same wish, it is believed it will be granted that a majority of the nation are opposed to his punishment.

The Richmond Enquirer.

Washington, Nov. 1.—The Richmond Enquirer is revived by Mesers. Tyler, its late proprietor, and Coleman, and has a salutary in which its editors says that the cause for which they contended has gone down forever; and adding that the oath of allegiance taken by ourselves in common with our fellow-citizens, has a far different significence than the same oath could have had before the unsettled question of supremacy between States and Federal Governments had been decided by the arbitrament of war. Now we acknowledge first, to the Union, before we held obedience to be due first to the State; the same honesty and sincerity which made the sons of Virginia brave the dangers of battle, and suffer uncomplainingly, the hardships of four years war, will be characterized in their observance of the oath of allegiance.

Reorganization in Arkansas.

Washington, Nov. 1.—It seems from recently received official intelligence that the reorganization in Arkansas has progressed quietly and is a success.

Tresident Johnson has informed the Governor of that State that there will be no interference with its government, and not only does he invite the State to resume its former relations with the federal government, but promises it all the aid and the power of the government in the premises.

Hon Jas. L. Orr, Governor elect of South Carolina, was pardoned some weeks ago, but as that State has not repudiated the rebel debt, she has failed to prepare herself for official recognition as a State loyal to the Union. Reorganization in Arkansas

The foreign imports at the ports of New York for the last month, September, were \$22,-674,496 dollars against 10.589,450 dolfor the corresponding month itse year, and from the comparatively small proportion entered for ware-house, and the large amount withdrawn from bond, it appears that the receipts were not at all beyond the wants of the market although the direct entries were four-times as large as for the same month of last year. The amount of goods yet in bond, at their gold value, was reduced more than three million dollars.—The receipts for custom during September reached the unprecedented total of \$12,029,615, attributable not only to the large amounts of goods entered for consumption, but also to the large withdrawal from bond. While the imports so largely increased last month the exports show a material decline at 144.

seems to be to keep near to shore, and investments are governed by oursent wants. In the produce departments of trade there is little or no speculative feeling. Even the pork trade, which is usually introduced with a flourish and considerable spirit, is extremely tome. Caution is the 'ruling feature now...' There are comparatively few contracts out, and the buth of the packers are more than indifferent about buying hogs at current prices. Sellers, however, are very firm at \$11 0012 00 gross, equal to \$14 0015 00 net, and the few hogs coming in bring these prices. This would make mess, pork cost fully \$35 00, which is \$2 002 00 above the present market value of the article. far have been little more than sufficient
to supply the wants of butchers, but
from Northern Ohio considerable numbers, are being shipped east. It may
be that under light receipts early in the
season, packers will exhibit more confidence, but at present they regard the
risk as great, especially as mess pork,
notwithstanding a comparatively light
stook is relatively lower than hogs.
